

Save the date---

Sunday, March 28, 2pm to 5pm

The Champion Forest Garden Club presents:

“Spring into Action”

Beautify your Yard and Champion Forest!

**A FREE family gardening event at Brill Elementary School
Door Prizes will be given though out the event!**

Sponsored by the CF Garden Club with help and support from
the CF Civic Club, CFF/HOA, CF PUD, CF Women’s Club
and CATSS (Cypress Area Teen Service Society)

Ask gardening professionals about your yard and garden problems while your children enjoy the moonwalks, games and the NW Regional Water Authority’s Teaching Lab.

- What trees are best for Champion Forest yards?
- What is the best mulch, compost and soil for our area?
- Are native plants easier to care for, do they grow better?
- Can we entice wild birds to our yard for song and beauty?
- Can simple water treatments add beauty and interest to our yard, without using much water?
- Can we landscape our yard for easy care?
- Can we make compost in our kitchen with no odor?
- Are earthworms good for our yard?
- Will drip irrigation and new water saving sprinkler heads save money in the long run?

**Bring your questions and/or diagrams to the Pros!
Meet friends and neighbors, enjoy the afternoon!**

Over 20 Door Prizes will be given though out the event, including 13 container gardens made by Garden Club members, 2 trees, other plants and products given by the professionals, and a rain barrel given by the PUD.

Hope to see you there!
