No building shall be erected, altered, placed or permitted to remain on any lot other than one single family dwelling not to exceed two stories in height and a private garage for not more than three cars and permitted accessory structures. This restriction shall not prevent the inclusion of servants quarters in connection with a garage, for the use of bona-fide servants domiciled with a tenant of owner; nor the temporary use of a garage, office or residence used as a sales or construction office with approval of the Architectural Control Committee, until December 31, 1985.

No building or other improvements shall be erected, placed or altered on any lot until the construction plans and specifications and a plan showing the location of the structure or improvements have been approved by the Architectural Control Committee as to use, quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. The Architectural Control Committee is composed of three members whose names are Don E. Hand, Carl J. Stephens and Warren W. Shaw. A majority of the Committee may designate a representative to act for it. In the event of a death or resignation of any member of the Committee, the remaining members shall have full authority to designate a successor. Neither the members of the Committee nor its representatives shall be entitled to any compensation for services performed pursuant to this covenant. The herein granted powers and duties of the Architectural Control Committee shall cease and terminate ten (10) years after the date of this instrument, and the approval required by this paragraph shall not be required unless, prior to said date and effective thereon, the then record owners of a majority of the lots subject hereto shall execute and file for record an instrument appointing a representative or representatives, who shall thereafter exercise the same powers and duties granted herein to the Architectural Control Committee. The Committee's approval or disapproval as required herein, shall be in writing. If the Committee, or its designated representatives, fails to give written approval or disapproval within thirty (30) days after plans and specifications have been submitted to it, or in any event, if no suit to enjoin the construction has been commenced prior to the completion of the improvements, approval will not be required and the related covenants shall be deemed to have been fully satisfied. The Architectural Control Committee, at its sole discretion, is hereby permitted to approve deviations in building area and location in instances where, in their judgements, such deviation will result in a more commonly beneficial use. Such approval must be granted in writing and when given will become a part of these restrictions.
