

flock safety

Our commitment to protecting your privacy while eliminating crime

Flock Safety helps 1000+ cities prevent and eliminate crime with technology that captures objective evidence and delivers it into the hands that serve and protect. In our pursuit of a safer, more equitable society, we place our commitment to protecting human privacy and mitigating bias at the core of every policy and product we develop.

Our focus on privacy & security

- Store all encrypted data (footage + metadata) on the AWS GovCloud for maximum security compliance.
- Build devices that capture objective evidence, like license plates, and never facial recognition.
- Permanently and automatically delete footage after recommended 30-day period.
- Give 100% ownership of footage to customers and never share or sell data with third-parties.
- Capture documented reason or case number to search footage to create an audit trail.
